REGULATIONS GOVERNING THE IMPORTATION OF  
POTATOES INTO THE UNITED STATES.

Under the Provisions of the Order of the Secretary of Agriculture Issued  
December 22, 1913.

(Revised February 28, 1922; effective March 1, 1922.)

LETTER OF TRANSMITTAL.

U. S. DEPARTMENT OF AGRICULTURE,  
FEDERAL HORTICULTURAL BOARD,  
Washington, D. C., February 17, 1922.

Hon. HENRY C. WALLACE,  
*Secretary of Agriculture.*

SIR: The Federal Horticultural Board respectfully submits the following revision of the regulations governing the importation of potatoes into the United States under the provisions of the order of the Secretary of Agriculture issued December 22, 1913. This revision supersedes the regulations as revised February 16, 1921, and involves a revision of Regulation 2 only. The purpose of the modification of Regulation 2 is to permit the entry of potatoes only from countries free from potato wart or other injurious potato diseases and insect pests new to or not widely prevalent or distributed within and throughout the United States. In other words, it does not seem wise or desirable to permit the entry of potatoes from any district of a country which is known to be invaded as to other districts by the potato wart or other dangerous potato pests. The potato wart, particularly, is so insidious a disease that certification of freedom of a province or district of an invaded country will always be open to a reasonable doubt. For this reason, in the administration of the quarantine hitherto, no permits have been issued for the im-

portation of potatoes except as to countries believed to be entirely free from this potato disease. It seems desirable, therefore, to have this limitation clearly indicated in the regulation. The revision of Regulation 2 will, therefore, not involve any restrictions not hitherto enforced on the entry of foreign potatoes.

C. L. MARLATT,  
*Chairman Federal Horticultural Board.*

**REGULATIONS GOVERNING THE IMPORTATION OF POTATOES  
INTO THE UNITED STATES, UNDER THE PROVISIONS OF THE  
ORDER OF THE SECRETARY OF AGRICULTURE ISSUED DECEMBER 22, 1913.**

---

**Regulation 1. Definition.**

For the purpose of these regulations the term "potato" shall be understood as meaning the common or Irish potato (*Solanum tuberosum*) and its horticultural varieties.

**Regulation 2. General Conditions Governing Potato Importations.**

Except as provided under Regulation 7, potatoes will be admitted from any country when it is determined by such field inspection as shall be approved as adequate by the Federal Horticultural Board, that such country is free from potato wart and other injurious potato diseases and insect pests new to or not widely prevalent or distributed within and throughout the United States, and such country must further agree to examine and certify all potatoes offered for export in compliance with these regulations: *Provided*, That the entry of potatoes will not be permitted from any country unless such country has an effective quarantine prohibiting the entry into such country of potatoes from any country known to be invaded by the potato wart or other injurious potato diseases or insect pests new to or not widely prevalent or distributed within and throughout the United States.

Entry of potatoes will not be allowed unless the invoice is accompanied by an original certificate and unless each container bears a copy certificate in accordance with Regulation 5.

Potatoes will be admitted into the United States only through the port designated in the permit.

The entry of potatoes will not be permitted except where the shipments pass directly from the country of origin to the port of entry in the United States: *Provided*, That when transshipment is necessary at a port of a country under quarantine such transshipment shall

be made by lighters from boat to boat in the harbor without landing the potatoes, and the consular invoice of place of origin must follow the shipment from original port of departure to the port of entry in the United States.

No shipment of potatoes will be permitted entry until it has been examined by an inspector of the Department of Agriculture and found or believed to be free from the potato wart and other injurious potato diseases and insect pests.

Shipments of potatoes certified as provided herein found to be infested with potato wart or other injurious potato diseases, or with insect pests, will be refused entry.

All charges for storage, cartage, and labor incident to inspection, other than the services of inspectors, shall be paid by the importer.

Except in case of bulk shipments, potatoes shall be contained only in bags, boxes, barrels, or other containers that have not previously been used for potatoes.

#### **Regulation 3. Applications for Permits for Importation of Potatoes.**

Persons contemplating the importation of potatoes shall first make application to the Federal Horticultural Board, Department of Agriculture, Washington, D. C., for a permit, stating in the application the name and address of the exporter, the country and locality where grown, the port of departure (or port of consular invoice), the proposed port of entry, and the name and address of the importer in the United States to whom the permit should be sent.

Applications for permits must be made in advance of the shipment of the potatoes.

Applications may be made by telegraph, in which case the information required above must be given.
